

## **Table of Contents**

## **ICML** Course

This course covers both MLT and MLA Accreditations

Duration: 3 day course

Maintenance Strategies Tribology **Base Oil Fundamentals** Viscosity Additives Lubricant Fundamentals-Grease Lubricant Failure Lubricating Oil Application Methods Lubricating Grease Application Methods Lubricant Selection Rolling-element Bearings

- Electric Motors
- Journal Bearings
- Hydraulic Systems
- · Steam and Gas Turbines
- Compressors
- Gears
- Automotive and Mobile Equipment
- Food Grade Lubricants

Contamination

**Contamination Control** 

**Oil Analysis Basics** 

Storage and Management of Lubricants

**Machinery Modifications** 

Field Inspections and Basic Machine Care
